ABOUT ME

I am Front-End Developer with **over 2 years of experience** in building dynamic web applications using **React** and **Next.js.** My journey began three years ago, when I transitioned from a background in Sociology to pursue a career in web development. My work is characterized by a commitment to **continuous learning** and delivering **high-quality user experiences**. I'm excited to contribute my skills and enthusiasm to innovative projects and **collaborative teams**.

WORK EXPERIENCE

Brainster   2022 - PRESENT
Front-End Developer

Brainster Learn
- Developed an **online learning platform** for academy students, incorporating a variety of features to enhance the user experience.
- Implemented **user authentication** to ensure secure access for students.
- Created a comprehensive **learning mode** to facilitate effective online education.
- Developed an **intuitive on-boarding process** to streamline user engagement.
- Generated **digital certificates** for course and academy completion, allowing **users to share their achievements** on social media platforms.
- Integrated an **AI assistant** to provide personalized support and guidance to students.

RJK Korchagin
- Intern **mentorship** and **developing** a website for a high school in Skopje, enhancing their online presence and accessibility.

Other Responsabilities
- **Maintained and updated** existing projects to ensure functionality and performance.
- Enrolled as an **assistant in a Front-End Academy** for 6 months, supporting students and contributing to the learning environment.
